How Deposits and Withdrawals Work

Deposit Funds Availability <i>(When funds deposited to your account are generally available)</i>	Cash deposited: Next business day Check deposited: Next business day generally, unless a hold is placed Direct Deposit and Wire Transfer: Same business day If a hold is placed on a check deposit, the first \$200 of a deposit of checks subject to a hold will generally be made available the first business day after deposit. We will give you an indication of when the remaining funds will become available. For determining the availability of your deposits, every day is a business day, except Saturdays, Sundays, and federal holidays. The end of a business day varies by banking center.
Deposit and Withdrawal Posting Order	Transactions are generally posted each business day following the close of business in the following order: First: Credit (deposit) transactions such as deposits by cash or check, ATM deposits, direct deposits, wire transfer deposits, and corrections to your account balance. Second: Debit (withdrawal) transactions received the same business day. We divide debit transactions into transaction-type groups and order transactions within each group chronologically (other than checks, which are sorted by serial number). We then post the transactions in sequence by group type and order. For group types and sequence, other exceptions and details, see your Deposit Account Agreement .
