<tr>
<td>Your interest rate and annual percentage yield (APY) may change at our discretion at any time. The APY assumes that interest paid remains in the account. A withdrawal will reduce earnings. We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the collected balance in your account each day. Interest compounds daily and will be credited to your account monthly. If you close your account before interest is credited, you will not receive accrued interest. Interest begins to accrue no later than the business day we receive credit for the deposit of noncash (checks). See the NB</td>

## How Deposits and Withdrawals Work

<table>
<thead>
<tr>
<th>Deposit Funds Availability</th>
<th>Cash deposited: Next business day Check deposited: Next business day generally, unless a hold is placed Direct Deposit and Wire Transfer: Same business day</th>
</tr>
</thead>
<tbody>
<tr>
<td>(When funds deposited to your account are generally available)</td>
<td>We may place a hold on funds you deposit in your account by check. If we do, a portion of the funds will generally be available to you the first business day after the day of deposit. Depending on the type of check you deposit, the remainder of the funds may not be available to you until the second day after the day of deposit or even later. We will generally tell you at the time you deposit a check if a portion of the funds from the check will not be available to you the business day after the day of deposit. We will also tell you when those funds will be available. For determining the availability of funds deposited by check, every day is a business day, except Saturdays, Sundays, and federal holidays. The end of a business day varies by banking center. See your Deposit Account Agreement for additional details.</td>
</tr>
<tr>
<td>Deposit and Withdrawal Posting Order</td>
<td>Transactions are generally posted each business day following the close of business in the following order: First: Credit (deposit) transactions such as deposits by cash or check, ATM deposits, direct deposits, wire transfer deposits, and corrections to your account balance. Second: Debit (withdrawal) transactions received the same business day. We divide debit transactions into transaction-type groups and order transactions within each group chronologically (other than checks, which are sorted by serial number). We then post the transactions in sequence by group type and order. For group types and sequence, other exceptions and details, see your Deposit Account Agreement.</td>
